DETAILED ACTION

**THERE IS NO OATH ON FILE IN THIS CASE! PLEASE FAX TO EXAMINER
NEIL LEVY 571-273 -0619 A COPY OF THE ORIGINALLY SUBMITTED OATH SO
I CAN HAVE IT SCANNED INTO THE FILE FOR THIS CASE.**

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-14 are rejected under 35 U.S.C. 103(a) as being unpatentable over Fenn et al '84 & Dolan et al '88

Fenn shows 1 part to 100 parts meets the claim 2 range of 0.001-1.0 ratios of the 2 components of the composition, regardless of intended use or effects thereof, but the amounts are small compared to the instant claims.

DOLAN also mixed potassium phosphate in [p.977] water phosphoric acid and

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Fosetyl-Fosetyl breakdown would provide Ca, as well [p.974] as the K from potassium phosphate, at the instant ratios of phosphate and phosphonate, but again . at low amounts. However, the dose/response curves(fig. 1 & 5 of Fenn1-3 of Dolan) clearly show enhanced efficacy with increased amounts, & thus would be obvious to one of ordinary skill in the plant protection arts to

apply the ratios shown effective of Fenn or Dolan, at amounts required to produce control desired. Applicant has not shown any basis for unexpected results attendant to multiples of amounts shown effective by Fenn & Dolan.

Applicant's arguments, filed 2/27/07, with respect to the rejection(s) of claim(s) 1-14 under 35 USC 102 have been fully considered and are persuasive. Therefore, the rejection has been withdrawn. However, upon further consideration, a new ground(s) of rejection is made in view of Fenn & Dolan

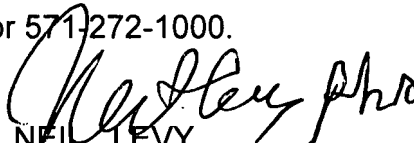

Applicant's arguments filed 2/27/07, with respect to the rejection(s) of claim(s) 1,3-14 under 35 usc 112 have been fully considered and are persuasive. Therefore, the rejection has been withdrawn.

The T.D.'s have been entered, the Double patenting rejections are withdrawn.

There is no avowal of amendment in order to correct error- , the oath to that effect is required.
